A WORD

From the Technocrats

"The web as I envisaged it, we have not seen it yet.

The future is still so much bigger than the past." -

Tim Berners Lee

As every coin has two sides, so does technology.
Just as it can be a useful servant, if given the wrong powers, it can turn out to be a dangerous master.
To counteract that from happening, technology is to be experienced under proper guidance and learning technology in a healthy environment is what we encourage.

Here at SRDAV, we aim to provide that environment under supervision of our incredible mentors. Technocrats, the computer club of srdav brings to you, another addition of the grand tech fest of our school, wartex#7.0 which is to be held on 18th august, 2022. Packed with all sorts of fun filled experiences, catering events from different aspects of technology.

Thanking the teachers and our mentors, and whole technocrats' team for the opportunity and the support, without whom the event wouldn't have been possible in the first place

**Regards,
Technocrats**
